

# Journal of the Australian Lowline Cattle Association **ONLINE**

This is the new ONLINE version of the 2008 Australian Lowline Cattle Association Journal. You are now viewing Page 1, the journal's front cover.

To make the Online journal look the same as the printed journal, the pages are in PDF format, which takes longer to load than ordinary web pages. So instead of having one continuous file, we have designed it to download page by page.

The BACK link is there for the use of those with older browsers. The latest systems will keep every page you have read in memory and it is best to go back to those pages from the Acrobat Reader link on your tool bar. (They will reload instantaneously.) Some earlier browsers will not do this and it is for them that the BACK link is intended.

Website addresses in advertisements or editorial, link to the websites to which they refer.

All links are clearly outlined with a red box.
